Brainwork

Solving puzzles strengthens logical thinking, deduction and creativity.

03

Stress Reset

Positive pressure releases feel-good hormones and helps reduce negative stress.

04

Motivation

Solving activates the reward system — set and reach new goals together.

05

Soft Skills

Empathy, patience and critical thinking are trained through playing.

TAKEAWAY Your class gets to know each other better. A shared goal turns them into a real team. A unique memory is created.
